

Uniform Fitting Day is August 13th from 9 AM to 12 PM

All students will be fit for both marching and concert uniforms. Non-Marchers will wear marching uniforms on Tag Day so need to be fit in advance.

We are trying something new this year. We are asking for you to give us measurements ahead of time so we can try to prefit everyone. It should make the actually fitting day go much smoother and faster for everyone. If you need, you may borrow a measuring tape from the band office.

This sheet is due on the first day of band camp August 1st. You can bring it in or mail it in to the office.

Directions for measurements

Have students wear lightweight clothing when being measured: allow no sweaters or bulky clothing that might distort measurements.

Use a soft measuring tape, not a ruler.

Keep the measuring tape straight and against the body – but not tight – do not add or take inches away.

Measure according to the instructions and diagram below:

CHEST – measure around the entire circumference of the fullest part of the chest. A - B - A

WAIST – measure the ENTIRE circumference of the natural waistline. C - D - C

HIPS – measure 7 inches down from the waist, then measure the entire circumference of the hips E - F - E

HEIGHT AND WEIGHT – Use a tape measure for accurate height measurement. Use a scale for accurate weight measurement. Measure a person's height from the top of the head to the floor with no shoes being worn. Measure the inseam H-I Groin to ankle.

WRIST – Place your index finger over the person's wrist and measure around both the wrist and the finger.

This represents a more accurate measurement to fit a gauntlet to be worn over a jacket.
